

Teachers Learning Together

NDTA Menu of Possibilities for School-Based Pro-D Days

Name	Email or phone number	Teaching Area	Possible Workshop or sharing topic
Alexander, Shana	info@actionschoolsbc.ca	Workshops for teachers are complimentary to BC schools. To book a workshop, please contact the Action Schools! BC Support Team at least 3 weeks prior to the intended workshop date. Schools that book workshops receive corresponding complimentary Physical Activity Action Bins and Healthy Eating Action Packs of resources and equipment to support the integration of healthy living into the school day.	Looking for ideas to incorporate healthy eating into your classroom and school? This recently updated workshop now highlights increasing vegetable and fruit consumption, reducing intake of sugary drinks, reducing sodium intake, and enhancing media awareness. Participants will receive a complimentary copy of the Action Schools! BC Classroom Healthy Eating Action Resource, Planning Guide, and Action Pages. More info: http://actionschoolsbc.ca/professional-development/teacher-workshops
Barrington, Travis	education@recycling.bc.ca	Travis is Environmental Education Coordinator at Nanaimo Recycling Exchange.	Learn about the following six environmental workshops provided by the Nanaimo Recycling Exchange: Zero Waste, Composting, Climate Change, Consumer to Conserver, Water Quality, and Ecology. See how all workshops can accommodate grades K-12 with engaging, hands-on learning activities.
Block, Amy	amy@amyblock.ca	Tribes Basic Training	Tribes Certified Training: A 24 hour workshop that provides teachers with the tools to establish inclusive and engaging learning environments. Based on the practise of collaborative skills and the understanding of brain compatible learning, Tribes training incorporates Multiple Intelligences, conflict resolution, cooperative learning, and creative lesson planning to enhance learning.
Driscoll, Sheila	sdriscoll@genomebc.ca	Genome BC is a research organization that invests in and manages large scale genomics and proteomics research projects and science and technology platforms focused on areas such as strategic performance such as human health, forestry, fisheries, agriculture, bioenergy, mining and the environment.	We work with BC secondary school teachers to provide students with our Genescool program, which offers <i>free, hands-on, science presentations and activities to their classes</i> . All activities have been designed to match BC Ministry of Education Prescribed Learning Objectives and consists of students meeting practicing scientists in their classrooms and receiving hands on demonstrations of an important concept in life sciences. For more information visit www.genomebc.ca/education/education-overview/
Edwards, Catharine	Catharine.Edwards@viu.ca	The FMS and PacificSport Games Workshops are ideal to assist elementary school teachers to provide creative quality PE for their students. Leung, Marylou	marylou.leung@justiceeducation.ca	Marylou Leung has worked for the Justice Education Society (formerly the Law Courts Education Society) as a project manager for many years. She is a lawyer and a teacher so has been able to combine both careers.	<p>The Law Project (www.LawProject.ca) is a multimedia rich website that allows students to explore issues relation to social justice and the law. There are seven topic modules on: Human Rights and Social Justice, Youth, Women and Children, First Nations, Residential Schools, Environment and National Security. Each topic includes an animated vignette, video opinions from a range of community members as well as a collection of images, documents and audio recordings.</p> <p>The Law Project meets the curriculum content requirements for Social Studies 9-11, Civics 11, Law 12, Social Justice 12 and First Nations 12. This 3 hour seminar will include training on how to use the website and the teaching resources. Teachers will learn how to create their own assignments and a video.</p> <p>Marylou can also do workshops on CybersafeBC.ca and LegalRightsforYouth.ca.</p>
